DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 17-21, drawn to the method, classified in class 342 subclass 357.01
 - II. Claims 1-16, drawn to the apparatus, classified in class 701, subclass 120.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II and are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process can be calculated by hand putting the coordinates of the reference location into the display device.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. Camby whose telephone number is (703) 308-2088.
